Brown	Emma	Head of Innovation, BLMK ICB	Yes				Y	Joint funded role with BLMK ICB, Health Innovation East and Health Innovation Oxford and Thames Valley- Contract hosted by Oxford University Hospital Health Innovation East (HIE) have a small number (less than 5) contracts with innovators/ small SME's that offer something that seems really promising to the system but are early stage and require more support than HIE are commissioned to provide. In these instances, often the innovators do not have the capital to pay for additional support or resources for example Health Economic Budget Evaluations, Infographics, Development of Value Propositions, Grant Funding/Bid Writing support, Surveys etc, and so a revenue share agreements is agreed with them (usually a small percentage of their gross sales). Any income generated to Eastern AHSN is reinvested back into other innovations to meet the needs of the NHS and the population in the East of England. An innovation is selected on its ability to meet the need of the area for improvement / transformation. Health Innovation East works impartially and do not promote individual products. Horizon scans can be completed to look at innovations that are available in the same area so the most appropriate	Sept 2022 (start of role in ICB)	Ongoing	An innovation is selected on its ability to meet the need of the area for improvement / transformation. HEI works impartially and do not promote individual products. Horizon scans can be completed to look at innovations that are available in the same area so the most appropriate innovations can be selected based on many factors e.g., cost, research/evidence and ability to used/implemented into local services and pathways. A competitor analysis has been completed for GaitSmart. New innovations are usually piloted first with real world evaluation to provide evidence of their positive impact locally before innovations are adopted fully.	01/11/2023
